

Change Management

Defining Change Management Programme:

The process focuses on exciting and enabling individuals & groups to take responsibility for realising the vision of their own organisation and the development of their own potential

Programme Objectives:

1. To acquire an integrated framework and methodology for Change Management, and a common terminology and set of tools.
2. To increase the ability to diagnose the need for change.
3. To become familiar with change leadership skills critical to the success of Change Management.
4. To raise the importance of communications in the change process.
5. To enhance the ability to coach and assist change leaders while acquiring a better understanding of the role.
6. To improve self-awareness.
7. To build a network for sharing ideas and experiences of Change Management.

The 7 Step Change Model:

Evolution - Change Leadership Programme: A Systematic Approach Using a 7-Step Process
